the tax matter is adjusted soon the money held in escrow will also be delivered to the owners just as soon as possible.

It may take an act of the Indiana Legislature to iron this matter out as the same situation has arisen down at the Jefferson Proving Grounds and settlements have been made the same way as those in the Newport area are being settled.

The land owners will be called to the land acquisition office in Clinton for these settlements as the checks arrive to execute their deeds to the government and it is hoped that all settlements will be completed with those who signed option within the next 30 days and that the land office will be notified of the present address of the land owners so proper notice of the time of settlement can be had.
